15."Because from elementary school we know, that lengths of all the triangle angles combined are 180 degrees. If one of them has had 180, then two others are 0 degrees, which means that all the edges have infinite length and they lay on themselves. That's how I discovered what is the result of dividing by zero, i was 12 back then"

16."I admire Amiga because of one thing - the IFF file format, which is still widely used today"

17."History tells us, that sooner or later every Exploration will end under Konqueror's reign, except those situations, when the Navigator won't make his job properly, and when he should yell „Land on the horizon!" the ship crew will shout „fucking 404!" instead."

2009

1."I don't even remember how the Blue Screen of Death looks like"

2."I use the number of 1332 very often nowadays, so it is not so special anymore..."

3."Because I will probably spent this night playing wow2 / Phoenix Wright / Chrono Trigger / Tomb Raider / Kudos 2 / PQ: Galactrix..."

4."tgrhy\n\n [That was the message from my kitty, which has just walked on the keyboard][And she did made a magical trick - the Ham Sandwich™ has been transformed into Ham Sandwich Without Ham™][At last third Sandwich was immune to magic because of an anti-curse called „The Hungarian Mustard" (Avaible for the Master Chief on 5th level and above)]"

5.She had the „phase" [PL: „mieć fazę"] on TurboDymoMan.

6.MC Valve Hammer Editor - You Can't Touch This, from the album „SDK Time!"
